

Harbour Australasian Equity Focus Fund

MONTHLY FUND FACT SHEET

Information as at 31 December 2020

Fund Description

The Fund is an actively managed fund investing in New Zealand and Australian listed equities. It is a high conviction fund where the portfolio will consist of companies our analysts have researched and have a high belief will perform over the medium to longer-term. A higher rated company will have a higher weighting in the portfolio.

Fund Benchmark

50% S&P/NZX 50 and a 50% S&P/ASX 200 Index (which is 50% hedged into NZ dollars).

Fund Objective

The investment objective of the Fund is to deliver medium to long term capital growth through investing in quality businesses with strong growth prospects.

Fund Update

Portfolio performance was ahead of the benchmark for the month and quarter. Positive contributors to performance for the month included positions in Pacific Edge, Summerset, Mainfreight, Fortescue Metals and Ebos Group. A downgrade to a2 Milk's profit guidance was a detractor from performance. A takeover offer for Infratil and strength in the utility sector (clean energy ETF buying) which the portfolio is underweight detracted from relative performance.
